JANGAN BUKA MODUL INI SEHINGGA DIBERITAHU

ARAHAN:

1. Modul ini mengandungi **lima** bahagian: Bahagian 1, Bahagian 2, Bahagian 3, Bahagian 4, dan Bahagian 5.
2. Jawab **semua** soalan.
3. Tulis semua jawapan anda di dalam kertas jawapan yang disediakan di muka surat **15** dan **16**.

INSTRUCTION:

1. This module has **five** parts: Part 1, Part 2, Part 3, Part 4, and Part 5.
2. Answer **all** questions.
3. Write all your answers in the answer sheet provided on page **15** and **16**.

Part 1

Questions 1 to 8

Read the text carefully in each question. Choose the best answer A, B or C. For each question, mark the correct answer A, B or C on your answer sheet.

Roblox
@Roblox

Hi ROBLOXIANS. We needed to clarify the situation that is currently taking place. We have decided to shut ROBLOX down - We apologise for this inconvenience and we will speak more about it later.

Source: Twitter

1. What is the purpose of the tweet?

- A To notify the users that Roblox is facing a problem.
- B To apologise to the users for the mistake made.
- ☒ C To inform the users that Roblox will cease its operation.

Jane,

Mum's leaving really early tomorrow, so could you wake me up at 7 when you leave for work? I mustn't be late for college again.

Tom

2. From this note we know that,

- ☒ A Tom would like Jane to do him a favour the following day. *have to get up*
- ☒ B Tom is reminding Jane they have to get up early the next day.
- C Tom wants to persuade Jane to take him to college the next day.

Ulek Mayang is traditionally performed by seven female dancers, dressed as princesses while three to four male dancers perform the role of the fishermen and 'bomoh'. In this ritual performance, the male dancers fall into a trance until they are restored by a true 'bomoh'.

Although the ritual aspects of the dance are seldom performed nowadays — except very rarely in certain coastal villages of Terengganu — the Ulek Mayang still possesses one of the most haunting melodies and dance gestures among the folk traditions here. Many believed that the song itself is an old invocation uttered to summon sea spirits so a sense of mystery and magic remains even without the ritual itself.

Adapted from *New Straits Times*

3. Which of the following statements is **not** true?

- ☒ A The dance is performed in a few rural coastal areas.
- ☒ B The trance performers could only be cured by the 'bomoh'.
- ☐ C This traditional dance uses magical spell to call sea spirits.

pickers.
your supermarket app

**freshly handpicked
fresh fruits,
vegetables,
daily essentials**

**launch
OFFER**

FREE DELIVERY ON ALL ORDERS
NO MINIMUM ORDER

4. From the advertisement, we know that you can

- ☒ A get free delivery deal throughout the year.
- ☒ B order fresh fruits and vegetables from the store.
- ☒ C buy fresh vegetables and fruits through the supermarket app.

- Ellis : Jane has been caught red handed
 Nick : Why? What did she do?
 Ellis : She was found shoplifting in the mall, in her school uniform. Can you believe it?
 Nick : Again! I don't think she can get away with it this time.

cannot
win

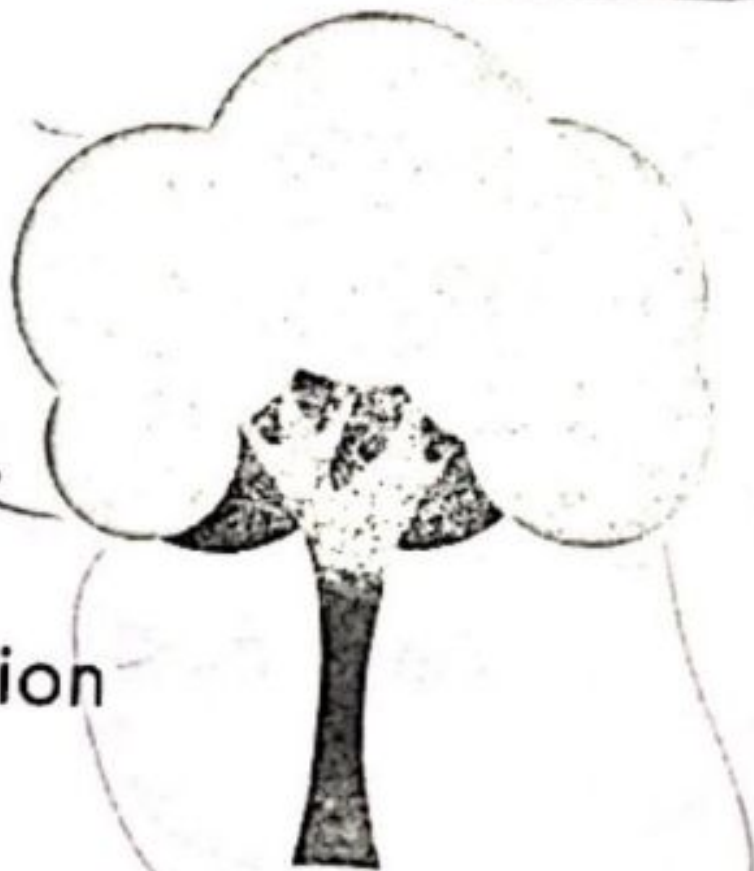

5. What does Nick mean by the phrase get away with it?

- ☒ A avoid punishment
☐ B accept punishment
☐ C reduce punishment

Deforestation is bad for the environment and mankind. Trees provide air for us and if they die we lose air. However, forests are being chopped down to make room for roads.

It destroys natural habitats.

#stopdeforestation
 #savetheforests

6. The main message of this note is

- ☐ A trees are the only source of our life.
☒ B trees are being chopped to build roads.
☒ C trees should be saved from being destroyed.

BODY SHAMING IS A CRIME

The effects include:

- stress and emotional disturbance
- loss of self-confidence
- depression
- eating disorder
- self-destruction

7. What is the ^{tujuan} purpose of this poster?

- A To raise awareness on how to overcome body shaming.
- ☒ B To educate the public about the harmful effects of body shaming
- C To inform the public about different factors of body shaming.

Volunteer Smartphone Patrol (VSP) is a new app that can be used by public to send real-time photos or videos of criminal acts, accidents and natural disasters to police. If you would like to use this app, you must register as a member.

If you witness an accident, you can make a complaint and share the location of the scene. Besides, you may send photos or videos via your smartphone. The police will take action after receiving your information.

8. What is the objective of implementing Volunteer Smart Patrol System?

- A To alert the public of the new patrolling app.
- ☒ B To increase the number of work forces in the police.
- C To improve the monitoring of criminal activities.

Part 2

Questions 9 to 18

Read the text below and choose the **best** word for each space. For each question, mark the correct letter **A, B, C** or **D** on your answer sheet.

SMART DEVICES THAT HELP CAREGIVERS FROM AFAR

A survey found that three out of four people aged 50 and older want to (0) stay in their homes and communities as they age. Smart-home technology, with devices powered by voice control, artificial intelligence (AI), and smart sensors, (9) B making it safer to age at home, while keeping caregivers informed.

"Technology is getting better, easier to use, (10) B, and better tailored to the needs of older adults and their caregivers," says Majd Alwan, Senior Vice President of Technology and Business Strategy for *LeadingAge*, an association of non-profit providers of aging services.

The new care app "BrioCare", equipped (11) D voice control via Amazon's Alexa, is geared to seniors aging alone. Along with curated content, video chats, and photo sharing, they get disease-specific tips, spoken medication reminders and refill alerts, and can tell their smart speaker if there's an emergency. (12) a mobile app, a family member can program reminders for appointments, medication, and daily routines, or personal messages in their own voices.

Smart, connected home devices including thermostats, light bulbs, and faucets can be controlled via voice command or mobile app. A smart smoke and carbon monoxide (13) C will not only notify an older adult by voice or alarm, but also send smartphone alerts to caregivers and can even connect with other smart devices to unlock doors or (14) A lights.

Moreover, home sensors (15) C around the house can alert family caregivers to a health issue. For example, if a sensor in the refrigerator hasn't (16) B activated all day, it could be a sign that a house member hasn't eaten or isn't feeling well. New devices in development even use AI to predict a potential fall, helping the seniors prevent a dangerous situation (17) C it happens and giving family critical information to determine what kind of care is needed most.

"Tech like this will (18) A how we age, deliver, and receive aging services in the future," says Alwan.

Part 3

Questions 19 to 26

You are going to read an extract from an article. For questions 19-26, choose the correct answer (A, B, C, or D) and mark the correct letter A, B, C, or D on your answer sheet.

Eric Giuliani has a motto after spending three years making his way around the world. Anything is possible. "I started this dream with no camera, no photography experience, no writing experience," he says. "I didn't have a travel blog or social media following. I didn't know how it was going to work financially because I didn't have enough money for long-term travel. "The most important thing in life is to figure out what your dream is. It's the hardest step of all."

Giuliani's dream was to leave his Miami-based corporate career behind and rediscover his purpose in life through a global odyssey that would take him to each continent. He spent a year learning photography, filmmaking and writing before embarking on an adventure in which he would try to exchange his marketing skills for lodging while using only buses, trains and ships to get from place to place. The highs and lows of the adventure are documented in a book that Giuliani released in spring 2021: *Sky's the Limit: One Man's 70,000-Mile Journey Around the World*.

The journey started on September 3, 2014, in one of Giuliani's favourite countries: South Africa. The trip got off to a smooth start, as some hotels agreed to Giuliani's photos-and-videos-for-lodging trade. Giuliani was also taking daily photos and starting a travel blog. Nevertheless, struggles began as Giuliani and his travel companion, Naomi, attempted to make their way through Mozambique, Malawi and Tanzania. Buses were hot and cramped, passports were missing the proper stamps, and money was lost.

Eric Giuliani isn't ready to give up traveling: He still would like to visit hard-to-reach islands. "I am a little over the solo traveling," he says. "If I travel any further, I hope to share it with someone else." Parting ways with Naomi didn't make matters any easier, as Giuliani then endured more long rides on run-down buses through the desert, took a wild motorcycle ride to pick up a travel visa, and evaded crime and terrorism in places such as Kenya, Uganda, and Ethiopia.

Giuliani opens up emotionally in the book, sharing that he struggled with whether he could continue the journey without Naomi. These struggles played a role in his later travels when he pursued her in places such as Siberia and China. Whether it was the desert cities of Africa or riding a train with Syrian refugees, Giuliani stood out — thanks to being 6'10, 260 pounds.

"It's a factor on those buses because I don't fit," the former Binghamton University basketball player says. "It's a pain to sit in a bus seat for 15 hours because you don't physically fit. But it's a bonus when you're walking around and people gravitate toward you because you are 6'10. It opens doors — being tall is a natural conversation starter — especially in other countries."

Giuliani's journey continued to take him to places such as Vietnam, Australia, Indonesia and North and South America. But the travel experiences, while memorable, were often lonely and alone. The trip came full circle, though, when he received the opportunity to board a small, old ship headed to his final continent: Antarctica. "Just the magic of being able to barter my way there was truly a miracle. **There were no holes in the story: I went to all**

Puhit

Even more meaningful was the camaraderie that developed with his shipmates. When Giuliani set foot on the ice-covered continent, he did it with a group of fellow travel lovers and newfound international friends. "The stars aligned with this incredible group of human beings," he says. "The travel is one thing, but to experience it and share it with others was the missing piece — especially in a remote place like Antarctica." 2017+3 2020

The trip came to an end in London in early August 2017. Giuliani spent the next three years compiling his travel blogs and doing additional writing. *Sky's the Limit: One Man's 70,000-Mile Journey Around the World* can be purchased in paperback or Kindle format at amazon.com.

Adapted from: <https://www.binghamton.edu/news/story/3347/a-globe-trotting-dream-comes-true>

- 19 In paragraph 1, what was Giuliani's **most challenging thing** to do?
- A To travel around the world.
 - ☒ B To determine his desire in life.
 - C To get money for his long-term travel.
 - D To make his dreams become a reality.
- 20 In Paragraph 2, we know that Giuliani
- A travelled to all continents. ✗
 - B wrote a blog on his journey. ✗
 - ☒ C mastered photography and filmmaking.
 - D planned to get free accommodation during his trips.
- 21 In paragraph 3, what was one of the challenges faced by the couple?
- A They lost their passports. ✗
 - B They struggled in South Africa. ✗
 - ☒ C They experienced a terrible public transport. ✓
 - D They had accommodation issues during their trip.
- 22 In paragraph 4, Giuliani can be described as
- A lonely and optimistic.
 - ☒ B daring and romantic. ✓
 - C adventurous and wild.
 - D determined and courageous.

- 23 What is the main idea presented in Paragraph 6?
- A Giuliani's struggles made him a great traveller.
 - B Giuliani was emotional about each trip he made.
 - ~~C~~ Giuliani's physical features had their pros and cons.
 - D Giuliani preferred to go on an adventure with Naomi.
- 24 What do you think "***There were no holes in the story***" means?
- A The trip to Antarctica was impressive.
 - B The story was a comprehensive documentation.
 - C Having a chance to go to Antarctica was a surprise.
 - ~~D~~ It was a complete journey when all continents were visited.
- 25 Paragraph 8 mentions about
- I The friendship with fellow travellers is important. ✓
 - II Sharing the travel experience with others is amazing. ✗
 - III Travelling to a remote place must be done in groups.
 - IV International collaboration can be promoted through travels. ✗
- A I and II ✓
 - ~~B~~ I and III
 - C II and IV ✓
 - D III and IV
- 26 When do you think Giuliani's book was published?
- ~~A~~ 2020
 - B 2019
 - C 2018
 - D 2017

Part 4

Questions 27 to 32 are based on an article about Greta Thunberg, a climate activist.

Six sentences have been removed from the article. Choose from the sentences A to H the one which fits each gap (27 to 32). There are two extra sentences which you do not need to use.

Mark your answers on the separate answer sheet.

The Swedish climate activist Greta Thunberg has become known globally for her environmental campaign. In August 2018, aged 15, Thunberg began a solo climate protest by striking from school. 27 A global strike in March drew more than a million people, however, in September it reached at least 4 million. 28

Her protests were inspired by US students who staged walkouts to demand better gun controls in response to multiple school shootings. Veteran climate activists have expressed surprise at how much impact Thunberg has had on public awareness in such a short time. 29 Speaking at the United Nations climate conference in December 2018, she berated world leaders for behaving like irresponsible children.

Born in Stockholm in January 2003, her mother is Malena Ernman, who gave up her international career as an opera singer because of the climate effects of aviation. Her father, Svante Thunberg, is an actor. Greta has Asperger syndrome, which has, her father says, in the past affected her health. 30

She has attracted criticism, particularly from right-wing commentators, who claim she is too young or naive to know what she is talking about and is being manipulated by her parents. 31 She has rebutted these criticisms and shown that she can live her low-carbon values with a vegan diet and by sailing to New York, rather than flying.

In September 2019 she condemned world leaders in an emotional speech at the UN, telling them: "You have stolen my dreams and my childhood with your empty words." On one occasion she crossed paths with the US president, Donald Trump. 32 He tweeted mockingly: "She seems like a very happy young girl looking forward to a bright and wonderful future." Thunberg turned around the jibe by adopting it as her Twitter bio.

Adapted from: <https://www.theguardian.com/environment/2019/sep/26/greta-thunberg-teenager-on-a-global-mission-to-make-a-difference>

- ~~A~~ Thunberg has described the rapid spread of the strikes around the world as amazing.
- B One commentator on Fox News referred to her as a "mentally ill Swedish child".
- ~~C~~ However, she sees her condition not as a disability but as a gift that has helped open her eyes to the climate crisis.
- D Thunberg has insisted she is just relying on the science.
- ~~E~~ Thunberg has begun travelling to spread her message outside Sweden.
- ~~X~~ F In January 2019, she rounded on the global business elite in Davos.
- ~~G~~ Her glare towards him became a social media viral sensation.
- H She has since been joined by tens of thousands of school and university students in more than a dozen countries.

Part 5

Questions 33-40

Six teenagers were interviewed about the Benefits of Audiobooks. Read the texts below and answer the questions that follow.

THE BENEFITS OF AUDIOBOOKS

A - Siti, 15 years old

It basically helps to improve basic literacy skills and expand basic vocabulary. Absorbing information from audiobooks also helps you practise your active listening skills, which are essential for everyday life.

B - Farid, 17 years old

Audiobooks help teenagers develop a better understanding of word rhythm, sentence structure, and pacing, which are components of good speaking, writing, and reading. Additionally, audiobooks can make reading feel more fun and accessible for teenagers.

C - Kevin, 16 years old

Not everybody wants to or is able to sit still for long periods while reading a printed book, but audiobooks can be listened to anytime and anywhere, and let the reader move around as much as they like while listening to the story.

D - Segar, 17 years old

I have a dyslexic brother and I have been observing his reading habits for quite some time. Audiobooks are a great solution for him and they actually are a great help for people with dyslexia or other learning disorders to enjoy reading.

E - Farah, 14 years old

Listening to audiobooks can help me make better use of my time. Imagine, I am having so much fun in my daily trip to school to learn and improve myself just by listening to audiobooks!

F - Laila, 15 years old

Audiobooks can be helpful for people with visual impediments — although books printed in Braille are available, they are typically much bulkier and more expensive than audiobooks or standard printed books, meaning that they're not accessible to every visually impaired person.

Adapted from: shorturl.at/cdsE3

Questions 33 – 36

Which paragraph (A to F) describes the following notes about Audiobooks?

Mark your answers on the separate answer sheet.

	Statement	Paragraph
33	It is something I enjoy during my routine commute.	E
34	It is good for students with learning difficulties.	D
35	It is easier for teenagers to access the learning materials.	B
36	It helps readers to learn more new words.	A

Questions 37 – 40

Complete the notes below using information from the text. Choose **no more than one word** from the passage for each answer.

Mark your answers on the separate answer sheet.

- Audiobooks are especially suitable for people who are unable to concentrate for (37) long hours.
- Teenagers can have greater (38) skills of spoken language through audiobooks.
- People with learning disorders also find audiobooks interesting as they encourage them to be fond of (39) habits.
- Even those who are visually impaired can enjoy audiobooks because they are not heavy and as (40) expensive as Braille.
