PART 3 • SUGGESTED POINTS

Why do people read reviews before making a purchase?

1 Trust

Reason: Reviews help buyers judge whether a seller is reliable.

Example: We can read several customers' experiences before ordering.

2 Quality

Reason: Other buyers may explain whether an item works well.

Example: We can check comments about a bag's stitching.

3 Rating

Reason: Ratings give a quick view of customer satisfaction.

Example: We can compare ratings and read the written reviews too.

4 User experience

Reason: Reviews show how a product works in real life.

Example: We can find out whether a bottle is easy to clean.

5 Product details

Reason: Buyers may share details missing from an advertisement.

Example: A review may show the actual size of a bag.

6 Price

Reason: Reviews can help us decide whether an item is worth its price.

Example: We can compare reviews of similar items at different prices.

How do students use technology in their learning?

1 Research

Reason:

Online sources help us find information for schoolwork.

**Example:**

We can use trusted sites to research an essay topic.

2 Videos

Reason:

Videos can show a process clearly.

**Example:**

We can watch a demonstration of a science activity.

3 Practice

Reason:

Digital exercises give us more chances to improve.

**Example:**

We can answer questions and check our mistakes.

4 Applications

Reason:

Useful apps help us with specific learning tasks.

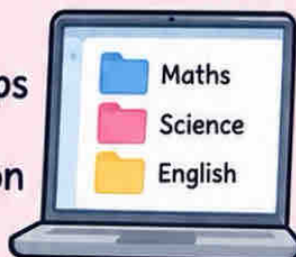

**Example:**

We can use a dictionary app to check a word.

5 Notes

Reason:

Technology helps us save and organise revision materials.

**Example:**

We can keep notes in clearly named folders.

6 Classes

Reason:

Online classes let students learn with a teacher.

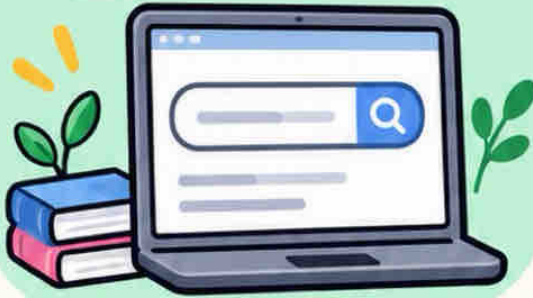

**Example:**

We can join a lesson and ask about an unclear point.

PART 3 • MODEL DIALOGUE

Why do people read reviews before making a purchase?

ROUND 1 • DISCUSS TOGETHER

A Hi! Let's discuss reasons people read reviews before buying something.

B Hi! What do you think about this topic?

A First of all, reviews help buyers judge whether a seller is reliable. For example, we can read several customers' experiences before ordering. Do you agree?

B Yes, I agree. Moreover, other buyers may explain whether an item works well. For example, we can check comments about a bag's stitching. What do you think?

A Yes, you're right. Furthermore, ratings give a quick view of customer satisfaction. For example, we can compare ratings and read the written reviews too. Do you agree?

B I agree. Another point is that reviews show how a product works in real life. For example, we can find out whether a bottle is easy to clean. What do you think?

A In addition, buyers may share details missing from an advertisement. For example, a review may show the actual size of a bag. Do you agree?

B Yes. Finally, reviews can help us decide whether an item is worth its price. For example, we can compare reviews of similar items at different prices. That's all from us. Thank you.

ROUND 2 • AGREE ON ONE POINT

A We both agree that quality is the most important thing to check because we want an item that works well and lasts. What do you think?

B I agree with you because other buyers can describe problems we cannot see in an advertisement. Shall we end our discussion here?

A Yes, thank you.

B Thank you.

PART 3 • MODEL DIALOGUE

How do students use technology in their learning?

ROUND 1 • DISCUSS TOGETHER

A

Hi! Let's discuss ways students use technology to learn.

B

Hi! What do you think about this topic?

A

First of all, online sources help us find information for schoolwork. For example, we can use trusted sites to research an essay topic. Do you agree?

B

Yes, I agree. Moreover, videos can show a process clearly. For example, we can watch a demonstration of a science activity. What do you think?

A

Yes, you're right. Furthermore, digital exercises give us more chances to improve. For example, we can answer questions and check our mistakes. Do you agree?

B

I agree. Another point is that useful apps help us with specific learning tasks. For example, we can use a dictionary app to check a word. What do you think?

A

In addition, technology helps us save and organise revision materials. For example, we can keep notes in clearly named folders. Do you agree?

B

Yes. Finally, online classes let students learn with a teacher. For example, we can join a lesson and ask about an unclear point. That's all from us. Thank you.

ROUND 2 • AGREE ON ONE POINT

A

We both agree that practice is the most useful way to learn with technology because regular practice helps us improve. What do you think?

B

I agree with you because checking our mistakes shows us what to work on next. Shall we end our discussion here?

A

Yes, thank you.

B

Thank you.

PART 3 • MODEL DIALOGUE

Why is helping neighbours important?

ROUND 1 • DISCUSS TOGETHER

A

Candidate A: Hi! Let's discuss reasons helping neighbours is important.

B

Candidate B: Hi! What do you think about this topic?

A

Candidate A: First of all, neighbours who help each other can respond to problems sooner. For example, we can tell a neighbour about a fallen tree blocking a path. Do you agree?

B

Candidate B: Yes, I agree. Moreover, helpful actions show that neighbours can rely on each other. For example, we can return a neighbour's parcel safely when asked. What do you think?

A

Candidate A: Yes, you're right. Furthermore, helping brings people together. For example, we can join neighbours in a small clean-up activity. Do you agree?

B

Candidate B: I agree. Another point is that helping shows that other people's needs matter. For example, we can help an older neighbour with a light task. What do you think?

A

Candidate A: In addition, kindness makes it easier to talk and solve shared problems. For example, we can offer help and learn our neighbours' names. Do you agree?

B

Candidate B: Yes. Finally, people may need extra help during difficult times. For example, a trusted neighbour can check on a family member. That's all from us. Thank you.

ROUND 2 • AGREE ON ONE POINT

A

Candidate A: We both agree that safety is the most important reason to help neighbours because people nearby can notice and report problems quickly. What do you think?

B

Candidate B: I agree with you because looking out for one another can make our area safer. Shall we end our discussion here?

A

Candidate A: Yes, thank you.

B

Candidate B: Thank you.

Why is helping neighbours important?

1 Safety

Reason: Neighbours who help each other can respond to problems sooner.

Example: We can tell a neighbour about a fallen tree blocking a path.

2 Trust

Reason: Helpful actions show that neighbours can rely on each other.

Example: We can return a neighbour's parcel safely when asked.

3 Community spirit

Reason: Helping brings people together.

Example: We can join neighbours in a small clean-up activity.

4 Respect

Reason: Helping shows that other people's needs matter.

Example: We can help an older neighbour with a light task.

5 Good relationship

Reason: Kindness makes it easier to talk and solve shared problems.

Example: We can offer help and learn our neighbour's names.

6 Social support

Reason: People may need extra help during difficult times.

Example: A trusted neighbour can check on a family member.
