First of all, I would like to talk about being a pilot. A pilot flies an aeroplane and takes passengers to different destinations.

Another reason is that I find this career interesting because I can travel to different countries. For instance, I may have the chance to visit Japan, Australia or Korea.

In terms of the qualities needed, a pilot should be responsible, confident and calm. Moreover, a pilot needs to pay attention and make good decisions.

Looking ahead, I would like to become a pilot because I love travelling and exploring new places. That is why I think being a pilot would be an exciting career. To sum up, it is one of the careers I am interested in.

Sample B2

To begin with, one career that has caught my attention is nursing. Nurses play an important role in hospitals by taking care of patients and assisting doctors.

What is more, I find this career interesting because it gives me the opportunity to help people and make a difference in their lives. For instance, a nurse can comfort a patient who is worried about a medical procedure.

When it comes to the qualities required, I believe a nurse should be patient, caring, responsible and good at communicating. On top of that, nurses need to remain calm when dealing with difficult situations.

As far as my future is concerned, I would consider becoming a nurse because I enjoy helping others and working with people. For this reason, I think nursing would be a challenging but rewarding career. Overall, it is a career that I would be interested in pursuing

I am interested in becoming a teacher because I enjoy helping other people learn. I think it would be rewarding to see my students improve and become more confident. For example, I could help a student who finds English difficult by giving them extra practice and encouragement.

One song that stands out to me is "beside you" by keshi. I enjoy listening to it because it has a soft melody and a relaxing vibe.

What makes it special is that the song creates a peaceful and comforting feeling whenever I listen to it. I usually play it when I want some quiet time, especially after a busy day at school.

For instance, I first came across this song through a friend who recommended it to me. At first, I only listened to it once, but I gradually started enjoying it and added it to my playlist.

On top of that, I think music can influence the way we feel and behave. From my point of view, it can reduce stress, improve concentration and help us express emotions. As a result, choosing the right music can make studying or relaxing more enjoyable

My grandparents, uncles, aunts and cousins were there. Some of my cousins came from another state, so it was nice to see them again. Besides that, I helped my mother prepare some food before we went to my grandparents' house. We also had a meal together, talked and took many family photos.

One piece of advice I remember clearly is "Never give up easily." My English teacher gave me this advice when I was worried about my English speaking skills.

What I learnt from this advice was that I could improve if I kept practising. Before this, I was afraid of making mistakes in front of my classmates. Because of this, I started speaking English more often and became more confident.

When it comes to following advice or following our own heart, I would say that we should listen to good advice but also make our own decisions. For instance, we can listen to our parents but think carefully about what is best for us.

In the end, I believe good advice can help us become better
